Special Issue: Greenwashing and Environment Social Governance (ESG)

(An Official Journal for International Computer Auditing Education Association)

The journal aims to provide a multidisciplinary platform for the advancement of knowledge in the areas of computer auditing. At the end of 2024, the journal will publish a theme issue entitled "Greenwashing and Environment Social Governance (ESG)".

Greenwashing is the issue of companies exaggerating their environmental image. ESG assessment and governance focus on corporate environmental, social, and governance responsibilities. Research in this area aims to delve into the ESG assessment and greenwashing issues to enhance understanding of corporate social responsibility and sustainable development.

All submissions must be anonymous and will be peer-reviewed by an international expert committee. The reviewing procedures is double-blind, meaning that the anonymity of authors and reviewers is preserved all along the review process. Please prepare your paper in a way that preserves anonymity of the authors.
